PROFESSIONAL SUMMARY

Ambitious IT Specialist and aspiring AI Engineer with hands-on experience in web development, automation, and agent-based AI systems. Skilled in building real-world projects including AI chatbots, autonomous task systems, and web applications. Passionate about leveraging modern technologies like Python, APIs, and GPT-based solutions to solve complex problems. Actively working on advanced AI systems and continuously improving technical expertise.

SKILLS

- PYTHON : Intermediate
- JavaScript : Intermediate
- TypeScript : Advanced
- HTML5, CSS3: Advanced
- Next.js : Intermediate
- Streamlit : Intermediate
- FastAPI: Beginner
- GPT-based Chatbots : Intermediate
- Agentic AI Systems : Intermediate
- API Integrations (Weather API, OpenAI, etc.) : Intermediate
- Task Automation Systems: Intermediate
- Basic Docker Knowledge: Beginner
- Problem Solving Debugging : Advanced
- Responsive Web Design : Advanced
- System Troubleshooting:
- :

HASSAN ALI JUNEJO

AI Developer | Python Developer | Automation Specialist

WORK EXPERIENCE

Apr 2025 — Mar 2026

Software and hardware Mngement, SHED Hospital

- Managed installation, configuration, and troubleshooting of software and hardware systems
- Diagnosed and resolved technical issues to improve system performance
- Assisted in maintaining IT infrastructure and reducing downtime
- Provided technical support and ensured smooth day-to-day operations

EDUCATION

Feb 2024 - Mar 2026

Specialization in Agentic AI & Cloud Applied Generative AI, Governor Initiative for AI & Computing (GIAIC) | Karachi, Pakistan

- Specializing in Agentic AI and Cloud Applied Generative AI, focusing on building autonomous "Digital FTEs" and end-to-end automated workflows.
- Developed high-performance web applications using Next.js (App Router) and FastAPI, following Spec-Driven Development (SDD) standards.
- Achieved Gold Tier status in technical hackathons by implementing complex MCP architectures and asynchronous system designs.
- Serving as a Student Leader and Mentor, actively guiding junior developers in Python programming and AI-driven development cycles.
- Expertise in integrating modern UI/UX trends such as Glassmorphism and interactive animations into scalable AI dashboards.

Aug 2024 - Aug 2025

Intermediate, Board of Intermediate Education, Karachi | Karachi, Pakistan

- Focused on core academic subjects while building a strong foundation in computer science and web technologies.

Aug 2022 - Aug 2023

Matriculation, Board of Secondary Education, Karachi | Karachi, Pakistan
